

The Newaygo County Medical Control Authority provides on-line medical oversight to the Emergency Medical Services personnel in Newaygo County.

The purpose of the Medical Control Authority is:

- To function as the Medical Control Authority responsible for assuring medical accountability within the Newaygo County EMS System through the promulgation of minimum standards of medical care, protocols, and operating policies and procedures.
- To coordinate, monitor, evaluate and plan for Emergency Medical Services in Newaygo County in conjunction with the local and county governments or agencies and the Newaygo County Emergency Medical Services System.
- To provide a program of community information and education designed to increase awareness of emergency medical services within the Newaygo County Emergency Medical Services System.
- To assure the availability and efficiency of training and continuing education programs, systems telecommunication procedures, patient care quality review procedures, and vehicle and equipment placement to assure the efficacious delivery of an Emergency Medical Services response in Newaygo County.
- To act in an advisory capacity to the township, municipal and county boards of commissioners on matters pertaining to the provision of emergency medical services within the Newaygo County E.M.S. System.
